Total accesses to this article since publication: 5924

This figure includes accesses to the full text, abstract and PDF of the article on the Immunity & Ageing website. It does not include accesses from PubMed Central or other archive sites (see <http://www.biomedcentral.com/info/libraries/archive>). The total access statistics for your article are therefore likely to be significantly higher.

Your article is 'Highly accessed' relative to age. See <http://www.biomedcentral.com/info/about/mostviewed/> for more information about the 'Highly accessed' designation.

These high access statistics demonstrate the high visibility that is achieved by open access publication. To keep track of how often your article is accessed, you can visit the "My Manuscripts" section of the Immunity & Ageing website at any time:

<http://www.immunityageing.com/my/manuscripts/>

You can check for citations of your article via "Google Scholar", a free service that can be accessed via a link in the box at the top left of your article (left of the title), or via the following link:

<http://www.biomedcentral.com/pubmed/gs/23675689>

Check this link periodically to see how often your article is cited.

Article download statistics and citation figures can be effective ways to demonstrate the impact of your research, when writing grant proposals or job applications.

High article download figures are just one benefit of publishing in Immunity & Ageing; others include rapid peer review, immediate publication of your article after acceptance and inclusion in PubMed, MEDLINE and PubMed Central shortly after publication. In addition, you retain copyright, so you are free to post your article on any website or distribute it in any other way you like.

Thank you for choosing to publish your article in Immunity & Ageing. We look forward to receiving your next manuscript - you can submit online at:

<http://www.immunityageing.com/manuscript>
